Report tx-preparation-2026-09-16-v1

Sources tx-fos-2026-09-16

Reference 11111111-1111-4111-8111-111111111111

A saved comparison of the published business or psychology Field of Study course lists at your selected Texas universities, with shared-course priorities, destination differences, unresolved entries and a printable advising report.

Does not determine admission, full degree completion, official transfer credit, prerequisites at your current college, or acceptance of private, out-of-state, AP/IB or other exam credit.

Reference scope

The state links these 2023 editions today. Its index mentions August 2026 business corrections, but the linked PDF still says July 2023. Confirm your applicable version before enrolling. This saved snapshot does not certify your catalog rights.

Your comparison

University of Houston

3 of 6 listed courses recorded with A/B/C; 1 in progress; 1 need review.

Texas Tech University

2 of 6 listed courses recorded with A/B/C; 1 in progress; 0 need review.

University of North Texas

2 of 6 listed courses recorded with A/B/C; 1 in progress; 1 need review.

Texas A&M University • College Station

2 of 6 listed courses recorded with A/B/C; 1 in progress; 1 need review.

Texas State University

2 of 6 listed courses recorded with A/B/C; 1 in progress; 1 need review.

These counts describe your entries against published lists. They are not transferred-credit totals or an admission score.

Shared courses to discuss with your adviser

Missing or not-completed entries, ordered by how many selected lists include them. This is a discussion priority, not a registration sequence. Confirm local prerequisites before enrolling.

PSYC 2319 - Social psychology

On 5 of 5 selected lists: University of Houston; Texas Tech University; University of North Texas; Texas A&M University · College Station; Texas State University.

Not entered

ENGL 1301 - Composition I

On 1 of 5 selected lists: Texas Tech University.

Not entered

MATH 1314 - College algebra

On 1 of 5 selected lists: Texas Tech University.

What changes by destination

A course absent from another Field of Study list may still transfer or meet another requirement there.

PSYC 2330: University of Houston; University of North Texas; Texas A&M University · College Station; Texas State University.

PSYC 2316: University of Houston.

ENGL 1301: Texas Tech University.

MATH 1314: Texas Tech University.

PSYC 2315: University of North Texas.

PSYC 2306: Texas A&M University · College Station.

PSYC 2320: Texas State University.

Resolve before registration

PSYC 2330: confirm the grade, credit amount, unit system or repeated attempt. No acceptance is assumed.

PSYC 2317: in progress; confirm completion and the final grade.

Outside at least one selected Field of Study list: PSYC 2316, PSYC 2330. Check the destination differences and ask which other requirements these courses may satisfy at each school.

UNT has published course-code discrepancies. Confirm the state-listed electives for your degree; CarryOver does not silently substitute an apparent typo.

Confirm catalog rights, complete Texas Core requirements, major admission, local prerequisites, upper-division work and residency with the colleges. Courses can overlap requirements; do not add this list's credits to a separate core total.

Texas A&M psychology: an important difference beyond the Field of Study

BA and BS, 2026-27; applications August 1, 2026-October 15, 2027. These notes do not evaluate admission eligibility.

Both sheets list a 3.0 minimum GPA, 24-60 transferable hours, and grades of B or better in required courses. A C recorded on this comparison does not meet that B minimum.

Required courses include ENGL 1302, PSYC 2301, PSYC 2317, PSYC 2330 and an approved mathematics course. MATH 1314/1414 are excluded from that mathematics requirement.

The BA includes additional foreign-language guidance. Consult the sheet for the chosen degree and confirm exam credit, application hours and all other admission conditions.

The sheets also restrict psychology courses accepted from community colleges. That list omits PSYC 2330 even though page 1 requires it, and does not include all state Field of Study courses. Ask A&M to resolve this before enrolling; this report cannot reconcile the conflict.

Official transfer sheet: https://admissions.tamu.edu/_files/26-27-transfer-course-sheets/2026-2027-psychology-ba-tcs.pdf

BS sheet: https://admissions.tamu.edu/_files/26-27-transfer-course-sheets/2026-2027-psychology-bs-tcs.pdf
